UNDERGRADUATE (AOP) COST OF ATTENDANCE WORKSHEET 2008-2009 ACADEMIC YEAR

This worksheet is for your use in planning your personal budget. It is designed to help you identify if the financial aid for which you are eligible will cover your tuition and fees. If applicable, it will also help you determine if the amount remaining after payment of tuition and fees will be sufficient for other education costs such as books, room and board, and transportation.

If your financial aid exceeds your tuition and fees, the excess will be paid to you in the form of a check issued by the Business Office for the purpose of meeting other education costs such as books, living expenses, and transportation to and from classes. (Note: Your financial aid award is based on the total cost of attendance which includes allowances for books, living expenses and transportation; these allowances are averages used for all Marylhurst University students and as such do not necessarily represent your actual costs; if you excess financial aid is greater than your actual costs, you may reduce your loans by simply notifying us.)

If your financial aid does not cover the full costs of tuition and fees, you will need to make arrangements at the Business Office for payment of the balance in order to ensure that your registration is complete and you are enrolled in your classes.
